

SCHOOL SECURITY SOLUTIONS

The most effective campus security solutions are video surveillance and access control.* These solutions are effective measures for deterring a crisis and responding to emergencies in an education environment.

Conversions & Upgrades

Migrate a legacy analog system into a network IP system with an incident detection feature and exceptional image quality.

- Hazel Grove Elementary

AI Powered Video Surveillance

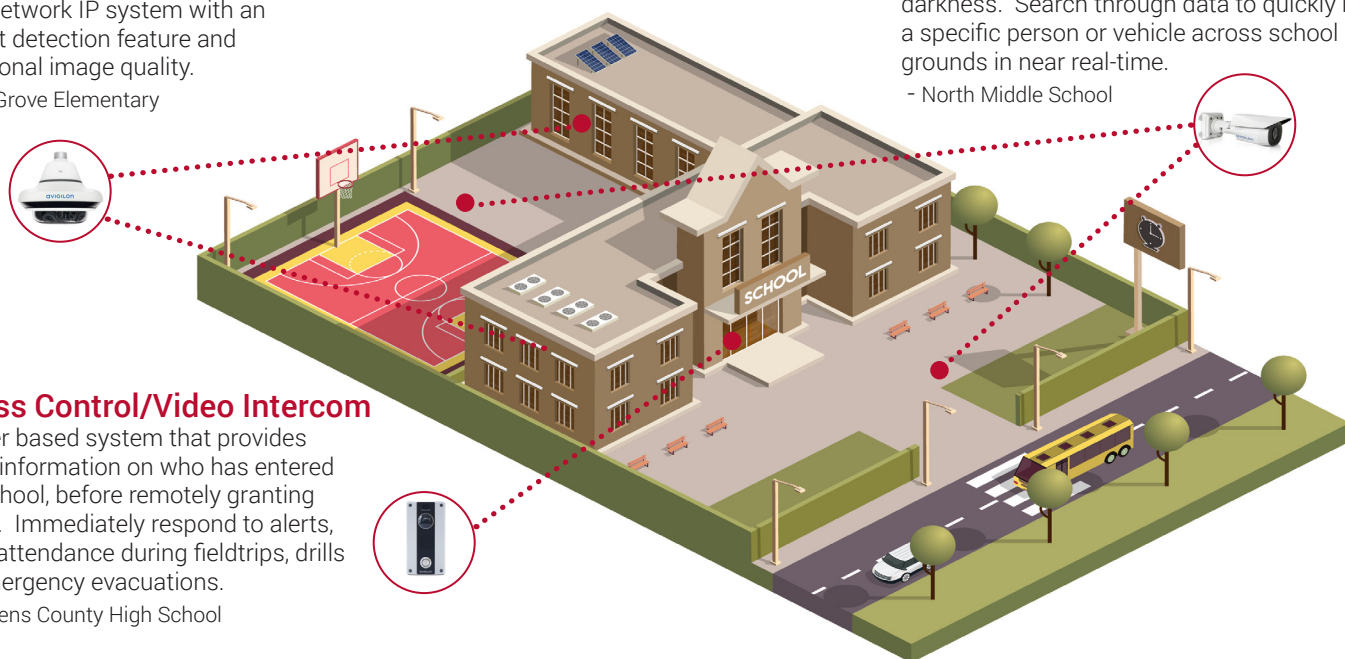

Monitor for trespassing, vandalism, theft, and overall perimeter protection, even in complete darkness. Search through data to quickly locate a specific person or vehicle across school grounds in near real-time.

- North Middle School

Access Control/Video Intercom

Browser based system that provides critical information on who has entered your school, before remotely granting access. Immediately respond to alerts, record attendance during fieldtrips, drills and emergency evacuations.

- Stephens County High School

EMC Security is your single source for end-to-end solutions and service.

Protecting over 350,000 students across 18 school districts in Georgia, EMC Security provides customized solutions for dozens of facilities.

- **Scalable solutions.** Non-proprietary equipment designed for future expansion.
- **On-time.** On-site project managers adhere to strict deadlines.
- **Within budget.** High quality service with competitive rates.
- **Payment terms.** Up-front cost assistance.
